1 INTRODUCTION

Selected for an EU grant under Erasmus+:
ID. 2019-1-IT01-KA202-007541

Total duration: **24 months** (prolonged)

Start date: **01/10/2019**

End date: **31/03/2022**

Approved budget: **299.743 EUR**

● PARTNERSHIP

Soccorso Clown - **Italy**

Spazio Reale Formazione - **Italy**

Sykehusklavnene - **Norway**

Association "Dr.Klauns" - **Latvia**

Le rire médecin - **France**

Universidade ISCTE Lisbon - **Portugal**

Associated partner EFHCO

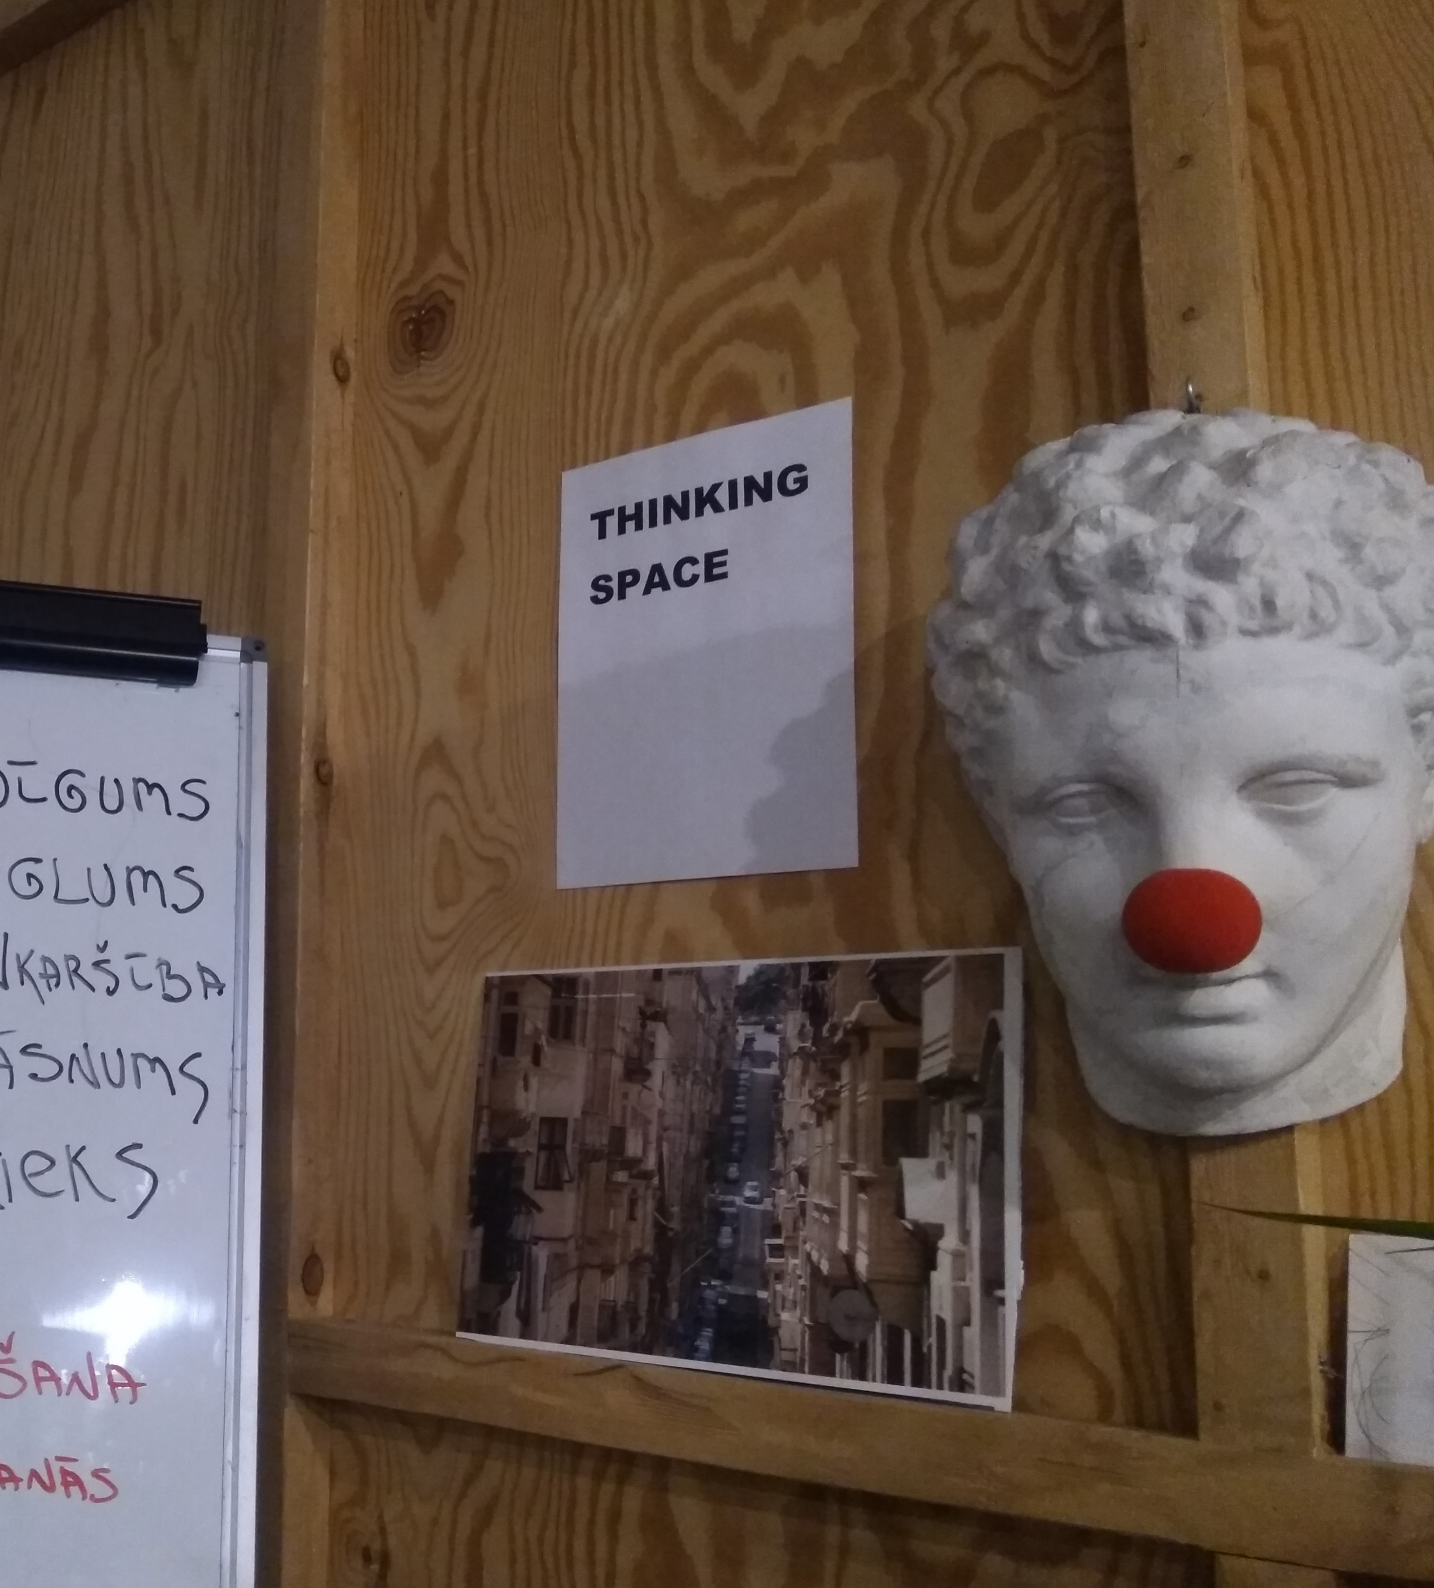

● SUMMARY

The "Health Care Clown Pathways" project is a Strategic Partnership supporting the innovation in the Vocational Education and Training Sector (VET).

The project has been created taking into consideration the growth and importance of the role of the Healthcare Clown professional performing artists, aimed at assisting and relieving the patients' anxiety and fear, especially in children and the elderly in healthcare institutions and social care services.

● SPECIFIC OBJECTIVES ACHIEVED

1. Designing, realizing, testing and validating an innovative training proposal aimed at defining the competences of those requested to work as Health Care Clowns in a sharing and transferable manner at European level;
2. Proposal of the European level training standards to obtain the qualified profession/specialization as Healthcare Clown, referring to ECVET and EQF Systems.

INTELLECTUAL 2 OUTPUTS

● ARCHITECTURE OF THE PROJECT

C1 Short-term joint staff training events

Transnational training activity of 5 days by Le Rire Médecin in order to define a common qualification and training pathways at a European level.

Project Leader: Le Rire Médecin – France

Period: December 2019, for 5 days

● INTELLECTUAL OUTPUTS

IO1 European Guidelines regarding the Qualification of Health Care Clown in accordance with ECVET and EQF System

Analysis of needs, resources, and potential identification of the needs and resources of the various subjects with which HCC work in different operational contexts, assessing their characteristics and the conditions of the context of reference.

Project Leader: ISCTE, Univesity Institute of Lisbon – Portugal

Period: 01.12.2019 - 30.06.2021

IO2 Methodological Framework for training formal pathway of Health Care Clown

Methodological Framework for the design and implementation of the formal training pathway, transferable at European level to achieve the Professional Qualification of Healthcare Clown in the performing arts, on the basis of the EQF and ECVET Systems.

Project Leader: Soccorso Clown - Italy

Period: 01.09.2020 - 31.08.2021

IO3 Experimentation of formal pathways in Italy, Norway, Latvia

Experimentation of some formal pathways in Italy, Norway, Latvia. The objective of this pilot course consists in testing the course's structure, training objectives, organization facilities, training methods, and didactic materials with the aim of a final validation.

Project Leader: Soccorso Clown - Italy

Period: 01.09.2021 - 16.03.2022

IO4 Digital Resource Centre

This will be a web platform that will make available and accessible the results of the intellectual output, the pilot courses realized, studies and researches, tools and methods, didactic materials, audio recording and video (videos, interviews, multimedia resources) of the activities carried out, on the basis of OER (Open Educational Resources).

Project Leader: Spazio Reale Formazione - Italy

Period: 01.11.2020 - 31.03.2022

PILOT COURSES IN 3 ITALY, NORWAY AND LATVIA

● PILOT COURSES IN ITALY, NORWAY AND LATVIA

OBJECTIVES AND ACHIEVED RESULTS

Theoretical Unit to obtain the knowledge and skills from historical to contemporary theatre arts in order to develop one's own clown performing skills and to develop and inspire healthcare clown interventions.

U1.2 Achieved result:

Ability to use the knowledge and skills from historical to contemporary theatre arts/ circus / cinematic representations / cartoon animations/ comic literature / storylines / characters and clowns to develop one's own clown performing skills and to develop and inspire healthcare clown interventions.

U1.3 Fundamental activities:

List of fundamental activities for the achievement of the expected result.

U1.4 Skills:

Development (classification of the different types of basic, technical/professional, and transversal skills necessary for effective oversight of the core activities described above).

COMPETENCES:

Ability to use the knowledge and skills from historical to contemporary theatre arts/ circus / cinematic representations / cartoon animations/ comic literature / storylines / characters and clowns to develop one's own clown performing skills and to develop and inspire healthcare clown interventions.

4 MEETING & EVENTS

● MEETING & EVENTS

KICK-OFF MEETING

October 30th - 31st 2019, Florence

The kick-off meeting which was held in Florence between October 30th and 31st 2019. During the meeting, the project was illustrated through a detailed working plan, intellectual targets and results, communication and spreading plan, and the plan for monitoring and evaluation. Time was also given to present the economic and financial rules for proper management of the Erasmus co-financing.

PRESS CONFERENCE

October 31st 2019, Florence

The press conference was held at the headquarters of the Tuscany Regional Council, in the presence of radio and television reporters, a proponent of "Ospedale Pediatrico Meyer di Firenze", several representatives of senior citizen residences, a proponent of H-CRIN+ European network of university researcher and of EFHCO. All the Project partners attending illustrated their own organization and the reasons of their involvement in the project.

The President of the Tuscany Regional Council Eugenio Giani reaffirmed the relevance of the project's aim to obtain the recognition and the European title of the new professional Healthcare Clown figure, as that of an expert attending in hospitals and the socio-medical structures which support children, the elderly, and adults with mental and physical disabilities.

STAFF TRAINING

December 2nd - 6th 2019, Paris

The Short-term joint staff training event was held in Paris from December 2nd till December 6th 2019. The French association Le Rire Médecin led the training. This association is the only one in Europe to have achieved the professional position of "Comédien(ne) - Clown en établissement de soins", corresponding to the 3rd level of the EQF System (European Qualifications Framework) and approved by the French Government.

During this 5-day formation period, each partner shared the reality of every single country, based on the general context illustrated by Rire Médecin. The fundamental points defined will be the object of the following Guide Lines (IO1) and methodological Framework (IO2).
